3. Committee Reports

a. Exhibits

(1) The Chairman read a letter of appreciation received from [] thanking the FAC for the opportunity to exhibit his bromoils. (U)

(2) [] presented representative pieces of his Turkish and Russian artifacts. His proposed exhibit would include brass, copper and bronze items of samovars, soap dishes, hammered trays, and prayer rugs. The Commission is interested in displaying his collection in October if it can be assembled by then.

(3) [] presented for examination old Chinese photographs taken during 1919-1922 in China. These were given to her by [] PAS, whose father took them during his tour of military duty in China. There is a possible difficulty of displaying these old and valuable photographs in a manner to permit people to see the details. The suggestion agreed upon was to see if it would be possible to enlarge selected photos and have loose leaf pages from the albums in

display cases. P&PD will be asked to blow up a couple of photographs to see what they would look like and to give cost estimates for other photo enlargements. The Commission is interested in this collection if it is displayable without inordinate cost. (U)

(4) The Hispanic exhibit will be displayed in September. (U)

25X1 (5) A sampling of 8x10 color photos on Africa taken by [] were passed around. Over 25 of them are already enlarged and mounted in poster size and ready for display. The Commission is very interested in exhibiting these photographs. (C)

Mr. Johnson will ask for DCI permission to display the bust. (U)

5. New Business

25X1 a. Control of Visitor Traffic. [] OS, (substituting for [] OS, who was unable to attend this meeting) presented a proposal to the FAC for the control of visitor traffic. OS is suggesting a follow-the-line concept 25X1

to keep visitors, taxis, etc. in approved areas of the compound. A line 4" wide would be painted down the middle of the perimeter roads, a different color leading to the front entrance and each of the visitor parking lots. The Commission expressed a preference for reliance on signs (perhaps color-coded) rather than street markings, but did approve colored markings on the pavement in North Parking to simplify identification of spaces reserved for visitors. If signs won't work for the other directional purposes, the Commission will consider having colored arrows painted on the streets.
